Summary of Estimated Savings and Costs

- 1. The savings and costs to be anticipated from implementation of the recommendations contained in this study are set forth in paragraph 2 below. For comparison, they are divided into two groups showing results from a revision of the current manual procedures:
 - a. Without a computer
 - b. With a computer

25X1 25X1 Exclusive of the cost of making this feasibility study (estimated at (19,650.00), the principal dollar savings and costs to be anticipated are:

	Without Computer		With Computer	
	One-Time	Amound	Onie-Tilbe	Annual
Sevings:				
Changes				
(Annex IV)	\$13,226.41	\$ 8,056.52	\$14,293.41	\$ 12,136.52
Elimination of Safe Cabi-				
nets in MRD (Annex IV)	3,395.00		3,395.00	
Elimination of Reports				01
(Annex III) Organizational Changes		25,620.00		84,000.00
(Payroll) (Amex V)				160 000 00
GROSS SAVINGS	\$16,623.41	\$33,676.52	\$17,600.41	165,000.00
Costs:	GILLOW CHENTY TO	23,210.25		\$261,136.52
Computer Installation				
(Annex VI)			\$10,000.00	
Ferallel Operation			7	
(1 month)			7,416.07	
Computer Operation				
(Ammex VI)				\$ 88,992.84
GROSS COSTS			\$17,416.07	\$ 80,992.84
MET OWE-TIME SAVINGS	\$16,623.41	سيد و	272.34	
NET ANNUAL SAVINGS		\$33,676.52		\$172, 43.68

- 3. These figures do not include any estimate of collateral savings, which should be very substantial, in the use of the following equipment, supplies and services:
 - a. Typewriters, duplicators, adding machines, etc.
 - b. Headquarters space and filing equipment.

Approved For Release 2002/06/26 : CIA-RDP78-04376A000100090044-5

- c. Pager and other supplies
- d. Filing time in components other than 89/0L
- e. Printing, courier, telephone and other services
- f. Records Management services and storage
- g. Etc.
